Eric Buchanan Joins J.L. Becker Company as Sales Engineer

J.L. Becker Company is pleased to announce the hiring of Eric Buchanan for the position of Sales Engineer. Prior to joining J.L. Becker, Eric gained industry experience working with OEM automotive companies and its suppliers, in both Account and Quality Management roles. He has managed large scale projects from initial request through PPAP launch and serviced both international and domestic accounts. His experience with a variety of heat treating processes and applications, coupled with quality and account management knowledge, brings unique insight in providing commercial-based heat treat solutions to J.L. Becker's customer base.

Eric attended Schoolcraft College in Livonia, Michigan, earning multiple degrees along with concentrated coursework in the Applied Sciences of Metallurgy and Material Sciences. He has successfully completed Six Sigma Green Belt Training and Karrass Development Courses.

J.L. Becker, a Gasbarre Furnace Group company, designs, manufactures and services a full line of heat treating equipment for virtually any process, including annealing, quenching, hardening and carburizing. These systems include both batch and continuous type operations, specializing in Integral Quench (IQ), Tip Up, Box and Car Bottom Furnaces. We also offer a full line of replacement parts and auxiliary equipment, such as atmosphere generators, quench tanks and charge cars.

###

For more information on how J.L. Becker can provide custom engineered solutions for your specific thermal heating requirements and manufactured heat treating equipment, contact Eric Buchanan at (734) 855-5460, or visit our websites at www.jlbecker.com and www.gasbarrefurnacegroup.com.
